## Moorhuhn invasion

Posted by jcarnley - 2008/07/11 12:24

---

I have most of the Moorhuhn chicken games only one doesn't seem to work and that is Moorhuhn invasion. The game plays alright but then it says there is a problem with the score and no score is recorded. I checked and all the files were put in the right place including the datafolder files for V32 games. Any other ideas?

If I have problem with a game, I will try download other version or that game from other sites. Sometimes I have luck :)

Or you could go to gamingplazza and check there. I am sure you can download it on this nice Site :)

If not i could serve a workin Version of course too. Check my Site: sawadikap.de

Use there the Seach-Bar and you will find a workin Version. If you still need it, then let me know and i pass it to you!

Hope i could help :)

you were right gaming plaza is nice. I did a search and it let me download two versions of the game. All you do is search and then it gives you a download link in the search results. I installed the game and it scored. I tried four other versions from various sites with no luck. Thanks for the heads up.
