<http://img293.imageshack.us/img293/1965/gghkbv6.jpg>

Please look at the screenshot first.

- 1.How can i remove the black borders?
- 2.i dont want to see the games at first page so how can i drop them too?

Regards!!

If you turn off the games on the first page, then the black borders will go away too.

It is a configuration option. I believe it is called "Show games on folders" Set that to no and you should be all set.
