
PURPS Challenge user directly from there profile

Posted by Korpio - 2008/09/26 23:19

I think a good way to add more movement in the PURPS is the ability to Challenge a user directly from their profile

Adding a simple link in the profile: "Challenge this user" :cheer:

Its kind of hard typing the username the challenge him :blush:

yes

I'm currently building a CB plugin for purps with user stats and link to challenge a user...
coming soon by the beginning of next week
anything else?

hehe not realy, component is perfect, simple and easy to use

Probably a spanish translation, I try translating it but some lines doesnt appear :(

that would be easier and hopefully the notifier gets updated soon. both together would be perfect.

thanks,

VR
