well I don't think I've ever posted that url here... ;)
www.retromundi.com

I made this site about classic gaming and online emulation with:
CB+ PUArcade & Facileforms as main components

comments are welcome

hi
good you like it ;)
for the emulation pages, I use cool java applets from many places with the facileforms component.

The 2 minutes redirection is basicly a module only shown on puarcade pages and emulation ones, only shown to guest users (rokaccess mambot) with a javascript timed redirection.
I allready posted the little code to this forum some months ago.
