
Activating the fireboard CB plugin on PU site

Posted by Azazriel - 2008/10/04 15:04

Hi guys,

Just a quick request, and if this isn't the right place to ask, just lemme know or move this thread to the appropriate forum.
:)

Would it be possible for you guys to activate the FireBoard CB plugin on the PragmaticUtopia.com site?

It sure would be nice to be able to have the 'Forums' tab on my profile page so I can see my posts, subscribed threads, etc.

B)
